

# 1042 Switch Box

Designed and  
Manufactured in the  
UK

## Need to Connect more than one piece of equipment to your bhi Noise Eliminating Speaker?

The 1042 Switch Box is the answer.....

### Features:

- Allows 6 pieces of equipment to be connected to a Noise Eliminating Speaker, In-line Module or existing extension speaker
- 3 Inputs - loaded at 8 ohms
- 3 Un-loaded inputs (for low level signals)

Rear view.

Now you can connect all your equipment to 1 Noise Eliminating Speaker, In-line Module or Existing Extension Speaker.....

Permanently - no more swapping of wires.
