

NCH - Noise Cancelling Headphones

Filter out unwanted ambient noise!

These **Active Noise Reduction** headphones reduce the ambient background noise to allow you to listen to the program source peacefully.

The headphones effectively remove noise such as air conditioning noise, ambient background noise, jet engine noise or music from another room.

The headphones are supplied with an aircraft adapter, so you can now listen to the film or CD player without all the jet engine noise.

Features:

- Lightweight, folding design, ideal for travelling
- Ambient noise cancelling on/off switch with LED
- Warning sirens and telephone rings remain unaffected
- Discrete battery holder AAA size (Battery included)
- 30mm Neodymium drivers
- Supplied with carry pouch
- 1.6M cable with 3.5mm jack plug plus 2-pin aircraft adapter

Technical Data:

Frequency response 20Hz - 20KHz

Noise cancellation 15dB

Impedance 32 Ohm
